

Justy

ANNOUNCES

NEW SINGLE

JUSTY releases new single **Hands** on **Friday, December 16th**.

"Hands is more than a song, it's an anthem of empowerment, determination, and self-reliance".

Written for Justy by their cousin Jordan Lohr-Madura in the aftermath of an abusive relationship, **Hands** is a triumphant reminder that we are the ones in control of our own future. The **Chicago**-based singer, songwriter, and social justice activist debuted across streaming platforms in 2014 and has since released two EPs, multiple singles, and collaborations. In 2022, **Justy** was nominated for Best Pop Artist by the Chicago Reader, awarded an artist residency with Dark Matter at **Elastic Arts**, and recently announced their upcoming studio album with 'Hands' as its leading single.
